Louisville Electrical JATC / LOUJATC.COM

Electricians Enable “LIFE”, Strengthen Communities, and Create Thriving, Financially Stable Families

We are an Electrical Apprenticeship that truly embodies a ***Free** Education model of “Earn While You Learn”.

An apprentice attends class one day every two weeks. While not in class the apprentice is working On the Job with skilled craftspeople applying what has been learned in the classroom. While working you are earning a living and honing existing skills while learn new ones.

The education is free to the apprentice while they are enrolled in the program, following the rules and policies, and working as they are directed. Unique Experiences, A Valuable Skill Set, Great Pay, Paid Family Healthcare, and Paid Retirement stacks up to equal an *Amazing Opportunity*. As an apprentice you have a guaranteed pay structure starting at \$15.23 per hour (plus benefits) with the first guaranteed raise after about six months. The pay increases in six tiers to \$33.21 (plus medical and retirement benefits). Those taking on various Supervisory roles can earn even more.

We teach the electrical industry from
Fiber Optics to Solar Panels, Building Wiring, Manufacturing,
Electric Vehicle Charging and MORE!

The Kentuckiana Electrical Apprenticeship and Training program consists of over 40,000 square feet of training facility, much of which is hands on training. Our 4 buildings are located on 2 campuses in Louisville and Lexington. We have two functional conveyor systems, an indoor roof for students to build a Solar Photovoltaic array, dedicated labs for Fire Alarm, Transformers, Industrial Controls, Lighting Controls, PLCs and Programming, Building Automation, Security and Access Control, Nationally Certified BICSI Copper and Fiber Optics Lab with PoE Lighting, Rigging and Lifting Lab, Conduit Bending and the list goes on and on and on and on... and You Can Experience It All.

GREAT Community, Experience, Benefits, and a Career setting you apart from
your peers that can never be taken away!

The Full Time Instructors are experienced Master Electricians that have Led Crews and Run Service, worked Maintenance and Estimated Projects. They have completed the Electrical Apprenticeship Program, hold College Degrees (three of which are Teaching Degrees), most hold Master Instructor Certificates, and five are veterans. We have BEEN there and DONE that. Our apprentices are being taught by the Best in the Electrical Industry that have a passion for giving back to the Industry, Individuals, and Families!

EARN WHILE YOU LEARN

***Free Education • Great Pay & Benefits**

Experiences Like Few Others • Skill & Knowledge for Life

Upon completion a participant has earned a [Kentucky State Electrical License](#), an [Internationally Recognized Journeyman Wireman Certification](#), [Various other Certifications and Credentials, including two OSHA Certifications](#), and an [IVY Tech Associates Degree](#) in Applied Electrical Technologies.

Keep an eye on our Website at www.loujatec.com for application dates and other information! If you are interested in applying you will need a copy of your Highschool Transcript or GED scores, copy of your driver's license, your Social Security Card and \$35 processing fee. After the application process and successfully completing an aptitude test consisting of algebra and reading comprehension, you will be interviewed and placed on a ranking list. We will offer apprenticeship opportunities to individuals on the ranking list as they come available.

Looking forward to seeing YOU....
